RELY ON
LIVE EVENTS

Remember how great it was to go out? Go to a show, listen to a band or see a comedian? Me too. But I also work in that industry.

An industry at risk of collapse.

Because I work in LIVE EVENTS I have had no income since March 2020, but I know that our industry is essential in bringing the UK economy back on line.

We are all struggling to be heard.

Other Countries are supporting their LIVE EVENT industries so that they can restart as soon as LIVE EVENTS return - but not ours! So please follow our campaign, write to your MP and support us however you can.
